Comments: I would like to express my support of this project. This is an important facilities improvement that is needed in order to keep our snowsports athletes competitive on a national and international level. We also need to do what we can to try to attract guest teams and athletes to train in the early season. Loveland and Copper are very competitive in that they have expanded their operations. We need to keep up with demand. The early season training has a positive economic impact on the Town of Vail. This venue could also help to bring ski racing back to Vail.

There are also the safety considerations. It is a benefit for all to have the public and athletes segregated. Further, we need expanded terrain in order to provide a safe training arena for the athletes at SSCV. The population at that Club has increased dramatically and their venue has not changed along with it. They do not intend to grow their athlete population but lets provide a safe environment for the existing membership.

Thank you for your consideration.
