First name: michael

Last name: callas

Organization: outdoor DIVAS

Title:

Comments: As a member of the community adjacent to the proposed Golden Peak Improvements 2016 #47937, I would like to voice my support of the initiative. The project has the potential to significantly improve the on mountain experience for young athletes, top-level competitors, event spectators and recreational skiers and snowboarders. As an individual who has a business investment in the snow sports industry and a parent of a child who has seen growth and development through the competitive ski experience, I believe this project will better the local community and its visitors. I strongly urge you to support the project.
