Comments: I strongly support the proposed Golden Peak Improvements Project. Vail needs a venue that can meet the requirements to host high-caliber international events. Vail also needs to continue to grow and develop, to the benefit of both ski racers and the general skiing and snowboarding community as well as the local community that lives in and around Vail.

The current space at Golden Peak is not adequate to meet the demand for all training and racing events at Vail. Additionally, when events are held at other locations on the mountain, it disrupts the skiing and snowboarding experience for the general public. The expansion of Golden Peak would allow all racing and training events to be held in one location.

I believe the Golden Peak project would not only be safer but would also ensure that high standards are met for local athletes as well as international events. Our whole family strongly supports the project.
