Comments: I wholeheartedly support this project. The social and economic benefits when Ski and Snowboard Club Vail develops the next Lindsey Vonn, Mikaela Shiffrin, Kaitlyn Farrington, or Aaron Blunck are difficult to quantify, but impossible to deny. This is good for our Country, good for Colorado, good for Eagle County, and good for Vail. The community, business owners, lodging, and restaurants all benefit from increases in tourism and increased name recognition.

Beyond the economics, I can speak from personal experience that SSCV is assisting parents in raising dedicated, compassionate, hard working children and young adults that possess the skills and qualities needed to become productive and successful members of society, with a passion for outdoor activities, and a respect for our public lands.

I believe that this project has been studied at length, that the legitimate concerns that were raised have been appropriately answered, and that it is time to approve this long needed enhancement to the existing training facility on Golden Peak.
