Title:

Comments: I support the proposed Golden Peak Improvements Project. Vail needs a venue that can meet the requirements to host high-caliber international events. The current space at Golden Peak is not adequate to meet the demand for all training and racing events at Vail. As a team from Minnesota that comes to Vail as our primary Racing and Training venue outside of Minnesota, I can tell you the expansion of Gold Peak would allow for increased usage of the area in a safer more efficient manner. This is a fantastic opportunity for hundreds of young athletes every year. I encourage you to support the project.
