Comments: I wanted to voice my opinion for the expansion of the gold peak area. I have 2 ski racers and own a business in vail village that services alot of visiting families. I often hear from visiting families how crowded that chair 6 and gold peak area is for "new skiers." I have great concern with the crowded training lanes that we need more training space for safety reasons and for opportunity for Vail to host more visiting teams and revenue for the town so they dont go elsewhere to Copper. these visiting teams, tourists are revenue for village businesses. For safety reasons I wish for the expansion so more room for training and races. This would be good for Vail on so many levels.

thank you,

Kerry Roach parent, local business owner and interested neighbor
