Comments: I would like to express my support of the Gold Peak Expansion Project at the Vail Ski Resort. It is a great opportunity to add needed training venues for high caliber athletes that are currently training at Vail. It would also get those athletes off of public trails which would create a better environment for all. Since this project is an extension to an existing area, it does not impact areas directly in the village or homes. Therefore, I encourage the Forest Service to allow this project to proceed.
