Comments: Hi -

I'm writing in support of Golden Peak improvements. I have two young boys that have participated in VVSC's program "Future Stars". Honestly they are not racers and I do not see us participating in VVSC too far into the future as they are not interested in racing or competing. I do feel that the expansion project is absolutely necessary for the continued use by VVSC, VVSA, VR and other racing clubs that use this area. Golden Peak is quite congested and I feel that the proposal is not over the top or an exploitation of the mountain and its natural surroundings. I also feel that the VVSA is a "business" that is relocating families to this valley. I have two neighbors on my street in EagleVail that moved here because their children are enrolled at VVSA. As a business owner, this is good news and I only see the positive effects of this improvement on the TOV and the Vail Valley. I understand homeowners in East Vail are fighting this project, but as my father used to say... You don't cut off your nose to spite your face. Thanks for your consideration.
