Comments: to Whom It May Concern:

I am in favor of this project and sincerely hope that it will go forward. i am a resident of Vail and have lived here for more than 20 years. I am also a father of two SSCV athletes and a coach and a business owner in the valley. I support this project as the Ski Club and the racing brings International athletes and business to our resort community. Further the Ski Industry has a visibility in European Country and when International Teams spend time in Vail it is free advertising. with a more substantial training Area , Vail could attract more international and national Teams and ski clubs to come and train on our mountain.

Further the safety of our Athletes will be enhanced with a separate training hill that doesn't funnel into the general public of Gold Peak Base Area.

my main concern for my athletes and kids is ample training area in a safe environment.

Sincerely,

Balz Arrigoni
