Comments: As a Ski Racer who's has been racing for Ski and Snowboard Club Vail since I was 6 years old, an expansion to the Gold Peak training venue would not only give Vail the ability to train and host Women's World Cup length Downhills, it would also give an opportunity for the local athletes to drastically improve their skiing through faster lap times and more variance in terrain. Thank you for considering this expansion, it would be greatly beneficial for my and the other athletes at Ski and Snowboard Club Vail
