Title:

Comments: I am a (42 year - year round resident & 32 years property owner in TOV) very opposed to the development of Golden Peak for the following reasons.

1.) Absolutely no benefit to the general public for additional ski terrain not for general public use - only benefits Ski Club Vail and other racers.

2.) Increase danger of skiing to the public on Golden Peak due to fast skiers in and around beginner areas and increased numbers on chair 6 and closures of ski ways due to training.

3.) Butchering a very old family of Aspens that are a land mark of Vail!! Should be considered a historical monument - Golden Peak!!

4.) Ecologically ruining allot of natural habitat for moose, elk, deer, fox, & marmot along with other native species to that area. Along with killing Aspens which have been endangered by blight for the past 20 years and we need to preserve what healthy family's still are in existence.
