Comments: Hi

I am a young full time ski racer at Ski Club Vail.

I travel from New Zealand to train and attend school in Vail for four months each year.

I love the existing facilities at Golden Peak.

The planned development will enhance my training substantially and lengthen the available season. It will also alleviate crowding on the existing race arena that limits space available, particularly when events are on. I am also excited that it will provide options for training and competing in speed events at my home mountain. I think the plan takes a lot of consideration of the environment and will not detract from the feel of Vail.

I fully support the development

Thanks
