First name: Brianna

Last name: Richards

Organization:

Title:

Comments: My name is Brie Richards, and I have been with Ski and Snowboard Club Vail for 2 years now. I think that opening up the top of Golden Peak could really be helpful for many reasons.

It could give more training space to more people, which would bring more money revenue in because foreign teams are paying to train at Golden Peak, which will benefit the Town of Vail and their businesses.

I think that some people may think that this could be very dangerous towards the environment, but we all know that Vail Resorts has a strong interest in taking care of the environment on the mountain.
