Title:

Comments: I have a few questions regarding reclamation:

- 1) Who or what entity will monitor progress and attainment of reclamation objectives?
- 2) If reclamation objectives fall short, what are the consequences?
- 3) What percentage of bond money set aside for reclamation is anticipated to be spent on reclamation of the actual area disturbed by the project?
- 4) Who will hold and control the bond money for reclamation?
- 5) Will reclamation objectives be thoroughly defined with clear milestones and completion criteria? (The document I read from Midas seemed to lack this kind of detail)

Thank you,

Ryan Campbell
