Comments: Dear Payette Forest Supervisor Keith Lannom and staff, I want you to know just how much I oppose private industry taking advantage of our public lands. We have a finite resource in our land and peddling off ownership and/or usage by private industry allows for the damage and destruction of this resource. While it may seem like a good, timely financial move, private industry has a single motive - profit.

So, please oppose anything that damages and/or gives away any public lands.
