Comments: I am writing to express opposition to this project. Many of my concerns are similar to those expressed by Idaho Rivers United on the following page:

https://www.idahorivers.org/newsroom/2017/6/23/south-fork-salmon-mine-proposal-threatens-endangered-fish

As a whitewater kayaker, I make several trips to the Yellow Pine area every year. The rivers and surrounding mountains provide some of the best scenery in the state. I worry that this project will cause irreparable damage to the rivers and their fish populations. Midas Gold does not care about the state of Idaho, its people, or its wild areas. They are a foreign company that wants to make money, and cannot be trusted to put the safety of the rivers above their own profits.
