Comments: I am certain that the Warm Lake and surrounding areas that we all know and love will cease to exist if this project is allowed to move forward. The traffic will increase astronomically causing major traffic delays,hazards and pollution to not only people, but wild life as well. The noise that trucks create as they travel the W.L. Highway echos across the lake and continues for miles. This area has been a wonderful respite from the stresses of city life for so many years and generations of families of campers,hikers, cabin owners and the like. It is visited not only by residents of all Idaho, but the whole of the USA and even foreign countries. This project will cause undue damage to the W.L.area, highway, and animal life causing pollution, Traffic accidents, and stress that are the very reason we go to the area to avoid.
