Comments: I was born in Stibnite as my dad drove ore truck to Cascade from the mine. I am in favor of this whole project, but I also want to be assured that I will still be able to recreate in this area with both my car and my atv. I want to be able to visit there from time to time to see whats going on and reminis where the old activity was. I like the idea of a new road away from Johnson cr. To protect the fish. Thank you.
