Title:

Comments: My family has enjoyed recreating in Yellow Pine and the surrounding areas for decades. While we are not opposed to the Midas Gold project, we are extremely opposed to shutting down access to the Stibnite road. The little town of Yellow Pine has benefited from outdoorsman of all kinds who patronize the community businesses on their way to and from adventures around our area. Shutting down access will likely cause a financial hardship on the few businesses in town. Along with the financial aspect, keeping the road open is extremely important to our family so we are able to share the beauty and history of the area with our grandchildren.

Thank you for your consideration.

Cindy Schreiner
