Comments: Closing the road from Yellow Pine to Stibnite and making the only access up Burnt log road, will have a devastating effect on Yellow Pine economically. Yellow Pine has a big role in the mining industry and this would keep the miners and recreational users from using the facilities at Yellow Pine. Yellow Pine gets alot of recreational users that love the Historic Yellow Pine, Stibnite and the areas around it.

It would be very difficult, dangerous, and take hours to access the public lands, Cinnabar, Roosevelt Lake, Stibnite, and Thunder Mountain by way of Burnt log Road.

Please reconsider closing the road from Yellow Pine to Stibnite.
