Comments: SFRAMP: I am very glad to see a plan taking place for our access. I do agree with most of the actions that are planned. I strongly disagree with the current administration when it comes to decommissioning roads ! I think it is a huge waste of money. Other actions are more important in my opinion.

I do agree with repairing Lower Buckhorn Creek and leaving it open at any cost. Martin Ridge trail should be converted to motorized however Cougar creek should be established as the route and loop opportunity for now until Martin Ridge can be finished. I love the idea of reconstructing #076 to the Davis Ranch this could help access to trails up to Rainbow Ridge and Parks Peak for more access and loop opportunities. perhaps a bridge across the South Fork at the Davis Ranch for better access.

Thank you and keep up the good work!

Jeff Baker
