First name: Steven

Last name: Chapel

Organization: WSATVA

Title:

Comments: I understand a forest service person from the Denver office will be meeting with several people from the Grand Valley Trails Alliance to talk about priorities for the forest plan. This is not acceptable unless this person also meets with other organizations such as the Western Slope ATV Association (the largest OHV organization on the western slope). The GVTA has not asked for input from the WSATVA and has not discussed with groups of similar nature, therefore they cannot provide priorities that the WSATVA & other groups may have.

Comment time should be extended until November.
