Comments: I am extremely pleased to hear about the Tumacacori Red Springs Single-Track Trail System #51581 project. I am a retiree living in the Green Valley, AZ, area. I am a recent member of the TRS rider group and I would be pleased to help out with this project in every way possible. I previously lived in the Chicago suburbs in Illinois and off-road riding areas were scarce. Now in GV, I have a 230cc Honda dual purpose dirt motorcycle and a 200cc Triumph Trials dirt motorcycle. I'm always looking for a safe, legal, and fun place to ride in my area. This project looks like it will be really worthwhile. There are others in my neighborhood who are also excited about the off-road riding area.
