Comments: I would like to voice my approval of the proposed project for the Tumacacori trail system.

I am a user of our outdoor trail systems. I hike, bike and yes I like to ride motorcycles as well. I believe there to be room for all sorts of users of our state lands and I look forward to the potential of new trial systems for our use.

As a steward of public lands I would like to make this a sustainable trail system and to that effect I plan on volunteering from time to time to help maintain it as I do with my local mountain bike trails.

I hope you can see your way to support this excellent addition to our recreational trail system. Thank you
