Comments: It's very exciting to hear about a new single track trail in the CNF!! I have lived in Hereford for over 20 years and it's always been disappointing that I need to head out of town and into a different forest to enjoy all the beauty of our wide open spaces here in Arizona. As both a motorcyclist and mountain biker, this kind of combined effort benefits so many user groups, while limiting the impact to the forest. Many users will benefit from this trail, so I hope the USFS continues to support its creation because I certainly do! Please proceed with the creation of this trail so that our local user groups can enjoy the Coronado National Forest.
