First name: Don

Last name: Hood

Organization: Arizona Trail Riders

Title: President

Comments: The Arizona Trail Riders 248 members wholeheartedly support this project. This project represents the first official single track motorized trail on the entire Coronado National Forest and once established, we believe very strongly the local user community will be very active in maintaining this trail system. The area where the trails are proposed are in areas where other established OHV trails exist and therefore should not create conflicts with other forest users.

Sincerely

Don Hood

President - Arizona Trail Riders
