Comments: I moved with my family from Dallas, TX to Rio Rico a year an half ago, during this time I've learned to appreciate the beauty of the Sonoran Desert (which I would miss if I move somewhere else).

This area has great potential to provide much needed outdoor entertainment for southern Arizona (hiking, biking, dirt biking, etc.). It will also represent an option for currently more popular areas close to Tucson.

I'm glad to hear about the project and I support it 100%. Access through projects like this one is the best way for families and new generations to care for and protect nature.

Thank you for the initiative
