Comments: I am 70 years old, and have been riding trail bikes for 50 years. I still enjoy getting outdoors while enjoying the beautiful varied terrain in So. AZ. My sons enjoy riding with me, and their children enjoy the trails as well. Being able to enjoy this area, as well, will allow us to broaden our exploring experiences. We vacation in Colorado annually because of the shared trail system the Forest Service has established near Gunnison, and hope the users at Tumacacori will respect and maintain these trails as well. Lastly, I would like to sincerely thank not only the NFS staff committed to developing and promoting this project, but also the citizens that have promoted the trail as well. Our family will continue to ride responsibly, and be good stewards of our natural resources. Please feel free to contact us if we can volunteer in the future to implement this trail network.
