Comments: Dear Sirs/Madams,

It has been my pleasure to ride in this area in the past. The responsible use of this land for recreation such as motorcycle trail riding and mountain biking appears to be one of the general use provisions that USFS land is meant to be used for. The fact that TRS is willing to maintain and watch over the area for this use, seems to be a great benefit that not only to users but also the USFS as well.

Sincerely,

Allyn Hill

TRS
