Comments: I highly approve of the proposed Tumacacori Red Springs Single-Track Trail System. As a Dirt biker, Hiker and Mountain biker, the multi-use trail is a wonderful opportunity for Outdoor recreation in it's many forms. Typical use by my family is 3 - 4 hikers, 2-3 Mountain bikers and two dirt bikers. We typically make a day of our trips and usually eat at least a lunch or dinner in the area after riding. Adding the usual gasoline, and compressed air our trips we usually help the local economy. I applaud the inclusion of motorized travel on single track and as a personal multi-user we can all coexist in the same recreation space.

I approve the Trail systems and look forward to it as an new adventure.
