Last name: BARTLETT

Organization:

Title:

Comments: Bureau of Land Management,

I am a native Nevadan and have been an avid sportsman my entire life. I was introduced to the Ruby Mountains about ten years ago and fell in love with their incredible breathtaking beauty. Why would such a natural treasure be even considered for oil and gas drilling? I vehemently oppose the leasing of land in the Ruby Mountains for oil and gas drilling. Please protect the Yosemite of Nevada.

Sincerely,

Ken Bartlett
