Title:

Comments: I want to vigorously oppose leasing land for fracking in the Ruby Mountains. These mountains are gorgeous. The crown jewels of north eastern Nevada. To lease them for oil development would be a tragedy. Wildlife watching, hunting, birding, hiking, backpacking.. these are all activities that people in the area enjoy in the Rubies. These are activities that bring people to the Rubies. These mountains are the reason I moved here. Don't desecrate them with disgusting industries like fracking.
