First name: Shirley

Last name: Higley

Organization:

Title:

Comments: I am not in favor of Gas & Oil exploration in the Ruby Mountains. They are a precious resource that is very fragile and the effects of exploration may cause it to never recover. The Gas & Oil companies do not have a reliable reputation of following the rules. They may agree to follow the rules but then proceed to do just what they want. Thinking that if they pay the fines all is well. Please do not allow them to ruin the Ruby Mountains and the life that exists there.

Sincerely, Shirley Higley

3rd generation resident of Elko County
