First name: Casey

Last name: Hogle

Organization:

Title:

Comments: I was born and raised in Elko, NV, and care deeply about the environment and people in that community (where my friends and family live). I strongly encourage the Forest Service to reject this proposal. Oil and gas exploration has no place in the Ruby Mountains. It would tear down the natural beauty in Elko County, cause destruction to our ecology, use scarce water resources, and pump dangerous chemicals into our environment.
