Last name: shuteroff

Organization:

Title:

Comments: We are long- time Yreka residents and are quite familiar with the area proposed for the project. It is clearly an area of concern for wildfire hazard and ours is a vulnerable community, we heartily endorse the project objectives. We particularly appreciate the philosophy of "moving toward a diverse fire-resilient ecosystem."

Thank you for the opportunity to speak to this project,

Sincerely,

David and Betsey Shuteroff
