First name: Murphy

Last name: Gardner

Organization:

Title:

Comments: Dear Decision Maker,

Please consider the ecosystem and environment that provide the necessary processes to create and thrive in such beautiful areas such as the Ruby Mountains. These connections are far deeper and more important than any business profits or any amount of energy these outdated sources can provide. Please stand up for the REAL future of environmental stewardship and more sustainable energy sources. There is NO NEED to deface yet another pristine ecosystem for dirty energy and big oil profits. MONEY IS NOT WORTH MORE THAN NATURE. Thanks for considering the bigger picture and fighting for what truly matters.

Murphy Gardner
