First name: Jim

Last name: Rackley

Organization: Nevada Muleys

Title: President

Comments: Nevada Muleys objects to providing these lands to the BLM for oil and gas lease disbursement. This is the largest deer herd in the state and provides more recreational opportunity to residents and non-residents than any other herd including lands from Lamoille Creek to Sherman Creek near the White Pine County line. This would be nearly the entire western side of the Ruby's which would encompass Green Mountain Bench which is an area with high concentrations of mule deer and a key migration route taken every year by mule deer.
