Comments: Don't Allow Fracking in the Ruby Mountains

Dear Ms. Elliott,

Have you been around areas opened to fracking? The environment is destroyed for any other purposes. Mitigation is bogus -- just a way to whitewash a toilet. Don't let it happen. America has enough areas much less beautiful that are already being destroyed.

I know you will be overridden by the Trump administration, but please take a stand at the local level.

Thank you,

Don Cornelius
