Comments: Don't Allow Fracking in the Ruby Mountains

Dear Ms. Elliott,

As a long time volunteer for the USFS , Im asking Why is it the govt seems to be on a non stop path to destroy as much pristine property as possible ? It is the duty of the USFS to protect the land not destroy it . The Ruby Mountains are next on the list . WE DO NOT NEED more oil and gas .. There is a GLUT that is going to last long enough . Leave these wildlands for the wildlife that lives there .

Pat Doherty
