Comments: Keep the Ruby Mountains Free from Fracking

Dear Ms. Elliott,

Please consider keeping the Ruby Mountains free from Fracking. Fracking poses grave danger to beautiful natural areas like the Ruby Mountains.

Fracking will not only destroy the pristine natural landscape, it will also disrupt the natural habitats of the animals (like the sage grouse, trout, and mule deer) that live in the Ruby Mountains. Once polluted, these areas cannot regain unspoiled. Please protect these natural resources by declining to allow fracking in this area.

Thank you,

Amanda Hungerford
