Comments: Don't Allow Fracking in the Ruby Mountains

Dear Ms. Elliott,

I urge you not to permit any leasing for oil and gas in the Ruby Mountains as the fracking and drilling would in various ways harm the habitats within these undisturbed areas of Nevada. Non-surface occupancy stipulations do nothing to protect our precious aquatic resources from the harms of fracking. The only way to protect the fragile resources of the Rubies is to forbid leasing on all of these parcels.

Thanks for your consideration of my comment.
