First name: Kenny

Last name: Phillipp

Organization:

Title:

Comments: As an avid hunter and sportsman I strongly disagree with the Lease of this land for exploration of gas, oil or any type of commercial use. The Ruby mountains are by far one of the greatest and most beautiful mountain ranges in Nevada. To allow a company to explore, drill or even cut new roads on this land would be devastating to the beauty this land holds. It would also disrupt the wildlife who call this land home. I strongly disagree with the lease or sale of this land.
