Title:

Comments: I oppose the lease for the Ruby Mountains Oil and Gas for the Ruby Mountains. The Ruby Mountains provide critical habitat for Nevada's state fish, the Lahontan cutthroat trout, and one of the largest mule deer herds in the country. The proposed oil and gas leases overlap and threaten the integrity of three contiguous roadless areas, and overlap an additional 11,000 acres of the Pearl Peak Roadless Area. I oppose this misguided proposal.
