First name: Joseph

Last name: Aiello

Organization:

Title:

Comments: Ruby Oil & Gas

We wish to make it known that we are NOT happy about your future plans for our water in Lamoille.

Our mountains are what we look at day and night. Its a beautiful little undisturbed area. Now you want to destroy that area!

it's bad enough that they are tearing down mountains all around us for gold. The state will never look the same.

All in the name of greed. Myself and my husband retired in our little town to get away from the hustle and bustle.

Now I hear we are being placed under US Forest Service greed.

I protest, no more peace or quiet. no more beautiful dark skies to look at the milky way. I don't want it in my backyard. Would you?

**STOP THIS**

Kathy Aiello
