Comments: Ruby Mountain Oil and Gas Proposal

Good Morning Susan,

Just to keep this simple - it does not make any common sense, whatsoever, to even put this proposal under any consideration at all for any type of future leasing of oil and gas for exploration or drilling.

In my opinion, the areas in question are currently being put to use in their "highest and best" use for the general public, ranching & hunting communities. It has been this way for many, many years.

For me personally, it is a sad day in our little Elko community when a government entity, for whatever reason, is allowed to start the destruction of a National Treasure such as the Ruby Mountains that we all love and enjoy.

Respectfully submitted,

Carol L. Buckner
