Commentary: Fracking pollution threatens Nevada's water, wildlife and commu...

By PATRICK DONNELLY

Fracking poses major threats to Nevada, even if Thomas Mitchell chooses to ignore them ("Lawsuit falsely claims ...

Dear Susan:

I attached the opinion found in "The Elko Daily Free Press" today because it delineates my concerns about the consequences of fracking across the U.S. 9 % of wells fail. We now have, as far as I am aware, clean water and air in our community. Why would we want to jeopardize that ? I am against allowing oil companies to come into our area and begin their harvesting activities that can ruin our community.

Respectfully,

John Luser
