Mountain City-Ruby Mountains-Jarbidge Ranger District Elko Office

Susan,

Please do not allow any oil and gas drilling or mineral extraction of any kind in our home mountains, the Rubies. The very few that gain financial benefit from this endeavor is far less than the number of people that enjoy a pristine habitat without industrial intrusion.

We moved here 15 years ago because of the Ruby Mountains and we know many others that have done the same.

The time has come when we should make do with the resources already being mined and harvested and protect the untouched lands for the next generations.

Sincerely,

Mark Hayward
