Comments: Custer Gallatin National Forest

I would like my tax dollars that go to the forestry dept to be spent supporting the forest and wildlife that lives in it. Specifically I would like the Custer Gallatin National Forest to support viable populations, and the genetic diversity of migratory buffalo. Please update your long-term habitat plan to include America's last wild buffalo.

The National Forest Management Act requires the Custer-Gallatin National Forest to "provide for diversity of plant and animal communities based on the suitability and capability of the specific land area in order to meet overall multiple-use objectives." 16 U.S.C. 1604(g)(3)(B).

Americans love their wild buffalo. Please help us out here. It would be good for our forests too.

Sincerely,

Sheri Kuticka
