

Data Submitted (UTC 11): 11/10/2017 3:46:38 PM

First name: Steve

Last name: Chapel

Organization: Western Slope ATV Association

Title: President

Comments: There needs to be more communication between the timber side, power line side and even the wildlife side towards the recreation people. Recreational trails should not be obliterated, closed or trashed simple because no one told the rec people what was being planned. Trails have been destroyed and closed in the past and had to be re-established at the expense of the recreational user. This should not occur.
