Title:

Comments: Dear USFS,

I'm a backcountry and Nordic skier, a hiker, mountain biker, rock climber, and 30 year resident of Telluride. I confess I haven't read every page of the revised plan, but as a longtime member of the Telluride Mountain Club, I read their email update with both their letter and Outdoor Alliance's. I agree with both parties on all counts.

I understand you walk a tightrope between motorized and non-motorized user groups. If you ever happen to slip to one side, I hope you always fall toward petroleum-free recreation.

Beyond that request, I promise to attend any trail building days you care to host.

Good luck and thanks for all you do,

Lance Waring
